## HYDRA POWER SYNTH 46 Fully Synthetic Hydraulic Oil

**HYDRA POWER SYNTH 46** is a premium quality ashless fully synthetic environmentally acceptable hydraulic oil specially developed to meet the requirements of the most demanding modern hydraulic systems in industrial and mobile services.

**HYDRA POWER SYNTH 46** is based on high quality synthetic base oil in combination with an unique additive package to ensure the following properties:

- Outstanding thermo-oxidative stability reduces deposit formation, improves pump & valve performance and allows extension of oil and filter change intervals.
- Exceptional anti-wear property.
- Naturally High Viscosity Index ensures minimum viscosity change over a wide temperature range.
- Excellent demulsibility helps in faster separation of water from oil and resists formation of emulsions.
- Special rust & corrosion inhibitors protect multi-metallurgy components against negative effects of moisture presence in the system.
- Rapid air release property due to non-silicone anti-foam technology to minimizes chances of pump cavitations leading to trouble free operations.
- Offers long term hydrolytic stability and yellow metal compatibility in presence of water.
- Compatible with multi-metals and sealing materials commonly used in hydraulic systems.

HYDRA POWER SYNTH 46 meets the following performance criteria:

DIN 51524/3 HLVP	AFNOR NFE 48-603	ISO 11158 HV	Vickers M-2950
I-286-S	US Steel 127, 136	Denison HF-1	Cincinnati P-70
